### Profile

A creative professional with 1+ year of experience, specializing in UI and web design. My artistic roots, combined with a strong grounding in computer science and design fundamentals, empower me to produce designs that are both visually striking and highly user-friendly. I'm driven by a passion for redefining modern design and discovering forward-thinking, innovative solutions.

### Experience

#### Intern UI/UX Designer – Faite IT Service and IT Consultancy

2025 January-July | Colombo, Sri Lanka (Remote)

Contributed to the design and enhancement of user interfaces for both web and mobile platforms, with an emphasis on delivering intuitive experiences aligned with client branding and user expectations. Participated in user research and developed user personas and journey maps. Supported the creation of cohesive design systems for digital products. Produced wireframes and interactive prototypes. Also handled graphic design tasks for marketing campaigns tied to product launches and promotions.

#### UI/UX Designer - Faite IT Service and IT Consultancy

2025 July (Present) | Colombo, Sri Lanka (Contract Basic)

Crafted user-focused interface designs for both mobile applications and websites. Utilized Figma to produce wireframes and interactive high-fidelity prototypes. Built and managed a robust design system in Figma to maintain visual and functional consistency across all digital products. Worked closely with cross-functional teams, including UX designers and developers, to improve UI elements across various projects. Actively took part in weekly design reviews and sprint planning sessions, fostering a more agile and collaborative workflow.

#### UI/UX Designer - Freelance

2024 | (Present)

Designed user centric UI designs for mobile and websites. Created wireframes, interactive high-fidelity prototypes using Figma. Developed and maintained a comprehensive design system using Figma, ensuring consistency across all products.
